Banners are all printed with outdoor UV solvent inks that are warranted against fading for three years. All printing is custom and is priced per sq. ft. (LxW) with sewn hems on all four sides and standard grommets or pole pockets are included. If banners are to be hung in windy areas let us know and we can add wind holes at no additional cost. Additional finishing options are available at a nominal fee, e.g., if you are ordering a larger banner (over 15' wide and 4' tall) we would advise using webbing. Webbing is like seatbelt material, it gets sewn into the hem and it helps support the weight on larger banners. "D-rings" can also be sewn in to the webbing to help with hanging. Rope can also be purchased. We will need to know how many feet will be needed. We only print 1 sided. If 2 sided banners are needed, we print 2 and sew the banners back to back. Realize that you are doubling your sq. footage cost.

Vinyl Banners are made from heavy duty fire retardant 13oz "scrim" vinyl. We use a matt vinyl that helps reduce glare.
